# SENIOR CLOUD/DEVOPS ENGINEER – CANDIDATE

## DEVOPS-A5

### Profile

DevSecOps engineer with 12 years in public sector and e-Government infrastructure. Specialized in compliance-first pipelines, OpenSCAP, and zero-trust architecture.

### Experience

DevSecOps Engineer, DigitalGovTech GmbH; Hanover, Germany — 2017–Present

Integrated security scans into CI/CD with OpenSCAP and Clair. Migrated legacy systems to zero-trust model using SPIFFE/SPIRE.

Infrastructure Engineer, BundesCloud UG; Braunschweig, Germany — 2013–2017

Set up secure private cloud with OpenStack. Automated compliance reporting and implemented network segmentation strategies.

Security Analyst, InfoCert AG; Hannover, Germany — 2010–2013

Audited access logs, detected anomalies using ELK stack, and helped implement GDPR data policy updates.

### Education

Leibniz University Hannover, Hannover — M.Sc. IT Security & Networks, 2011

University of Bucharest, Bucharest — B.Sc. Information Technologies, 2008

### Skills

OpenSCAP, Clair, SPIFFE, SPIRE, OpenStack, ELK, CI/CD, Ansible, Zero Trust, Compliance

### Awards

Certified DevSecOps Professional | OpenStack Certified Administrator | EU GDPR Compliance for Engineers
