
SENIOR FULL-STACK ENGINEER – CANDIDATE FS-A3

Profile

Full-Stack engineer with 8 years experience in e-commerce, building feature-rich platforms with microservices, serverless functions, and modern UI frameworks.

Experience

Full-Stack Developer, Buylt GmbH; Düsseldorf, Germany — 2020–Present
Developed multi-vendor product pages using Vue.js and Node.js. Integrated Stripe API and AWS Lambda for dynamic pricing.

Web Engineer, ShopGrid AG; Cologne, Germany — 2016–2020
Built CMS-like admin panel using React and GraphQL. Helped reduce backend API load by 40% via caching strategies.

Junior Developer, CartNow UG; Bonn, Germany — 2014–2016
Maintained shopping cart system and refactored legacy PHP modules into RESTful services.

Education

RWTH Aachen, Aachen — M.Sc. Web Technologies, 2014
University of Belgrade, Belgrade — B.Sc. Software Engineering, 2012

Skills

Vue.js, React, Node.js, GraphQL, AWS Lambda, Stripe API, MongoDB, Redis, Docker, PHP

Awards

Stripe Certified Developer | GraphQL Bootcamp Certificate | AWS Serverless Developer Badge
