SENIOR CLOUD/DEVOPS ENGINEER – CANDIDATE DEVOPS-A4

Profile
Platform-focused DevOps engineer with 10+ years of experience in connected mobility systems and transportation platforms. Expertise in GitOps, infrastructure as code, and edge deployments.

Experience
Platform Engineer, MoveOS GmbH; Munich, Germany — 2019–Present
Deployed GitOps-based platform using ArgoCD and Helm. Built edge compute rollout system using K3s clusters and automated OTA updates.

DevOps Consultant, AutoPlatform AG; Augsburg, Germany — 2015–2019
Implemented IaC with Pulumi and dynamic infrastructure scaling with Kubernetes. Supported CI/CD for autonomous systems simulations.

Linux Systems Engineer, DriveTech UG; Regensburg, Germany — 2012–2015
Automated OS provisioning using PXE boot, Ansible, and integrated monitoring stack with Zabbix.

Education
Technical University of Munich (TUM), Munich — M.Sc. Embedded Systems and Networks, 2012
University of Sofia, Sofia — B.Sc. Computer Engineering, 2009

Skills
GitOps, ArgoCD, Helm, Pulumi, K3s, Ansible, PXE, Kubernetes, Zabbix, CI/CD

Awards
GitOps Advanced – ArgoCD & Helm | Pulumi Infrastructure Expert | Certified Kubernetes Edge Administrator
